

Download Windows & MAC application here:

<http://www.school-communicator.com/download.php?schoolid=144>

Mobi Link: <http://schoolcommunicator.mobi>

Please note:

Windows installer is compatible with Windows XP, Windows Vista and Windows 7.

Mac installer is compatible with Mac OS 10.6, 10.7 and 10.8.

If you are upgrading the School Communicator on a Mac you will need to manually remove the existing installation before installing the new version. Simply drag the folder from the Application Folder into the trash can.

Mac 10.8 (Mountain Lion)

Depending on your security settings your computer might not let you install the Communicator because it has not been signed. However, you can still install the Communicator - simply right-click on the pkg file and select "Open with - Installer". It will warn you that the installer is from an unidentified developer, but you can continue with the installation anyway.

Please contact the D6 Communicator support team if you experience any problems installing the software support@school-communicator.com.
